March 2015

Bosch Packaging Technology Supplier Assessment 2014

Ladies and Gentlemen,

As part of the supplier development we evaluate the general performance and the structural organization of our suppliers for the locations:

**Barueri (BRA), Crailsheim (GER), New Richmond (USA), Ternitz (AUT),
Viersen (GER), Weert (NL) and Waiblingen (GER).**

The result of this assessment is influenced by the following criteria and weighting:

- **Complaint rate** (total number of complaints divided by total delivery positions) influences the result by 50%.
- **On-time delivery** (OTD) represents 35% of the overall result. The delivery date variance is measured (premature / was late) against the agreed delivery time frame.
- **Cooperation** makes up the remaining 15% of the overall result and is assessed by the buyer. Cooperation includes reliability, technical competence, price level, mindset and support.

The assessment of your company shows the following result for the period: Jan. 1st, 2014 – Dec. 31st, 2014.

Because of additional participating sites and changed evaluate systematic (no certificate consideration), the comparison with 2013 and the view per site was skipped.

Year	Supplier categorisation	Total points	Number of delivered positions	Quality			Cooperation	OTD	
				Rating [max 100]	Complaint Rate [%]	Number of complaints	Rating [max 100]	Rating [max 100]	Deliveries out of schedule
2014	A	96,25	15	100,00	0,00	0	75,00	100,00	0

The result of this assessment is the basis for the further cooperation with your company.
